

국제 발명 특허 보유

지구온난화 방지 공법

01

중앙분리대 자연화

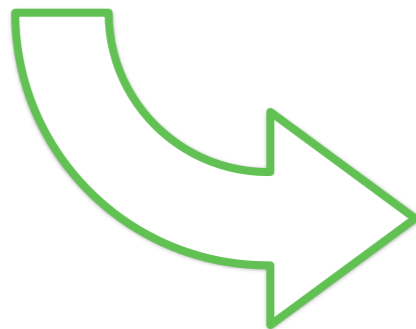

Vegetating Road Median Barriers

Eco-face®

Eco-face® is suitable for
Vegetating Road Median Barriers

<Before>

<After>

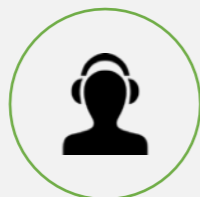

사고시 충격 흡수 및 완화

Shock absorption and reduction during accident

도로 주변 지열 감소

Reducing roadside heat

소음 흡수

Noise absorption

도로 주변 녹지 공간 창출

Producing greener space around road

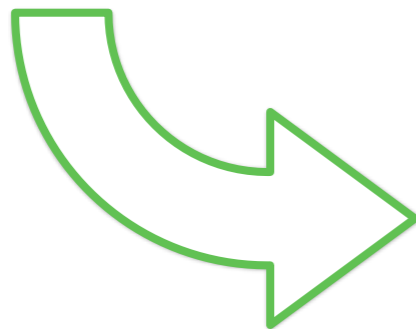

02 가드레일 자연화

Vegetating Guardrails

Eco-face®

<Before>

Eco-face® is suitable for
Vegetating Guardrails

<After>

02

가드레일 자연화 특징점

Benefits of Vegetating Guardrails

Eco-face®

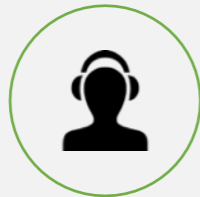

사고시 충격 흡수 및 완화

Shock absorption and reduction during accident

도로 주변 지열 감소

Reducing roadside heat

소음 흡수

Noise absorption

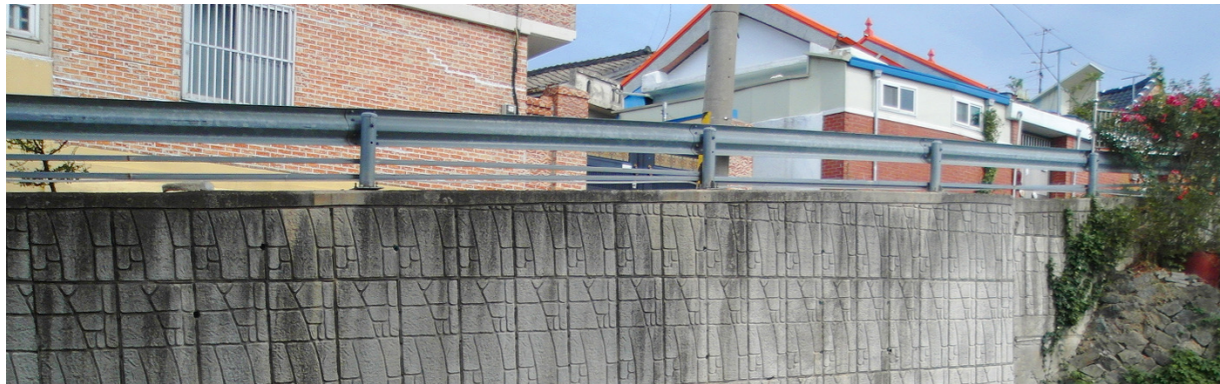

도로 주변 녹지 공간 창출

Producing greener space around road

03 콘크리트 구조물 법면 자연화

Vegetating Concrete Surfaces

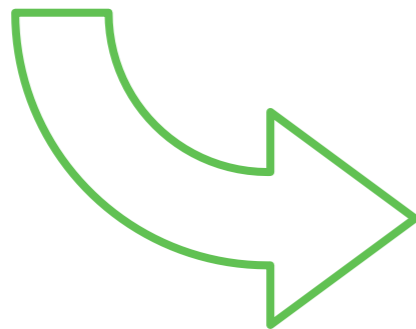

Eco-face®

Eco-face® is suitable for
Vegetating Concrete Surfaces

<Before>

<After>

03

콘크리트 구조물 법면 자연화 특징점

Benefits of Vegetating Concrete Surfaces

Eco-face®

경관 개선 기능

Landscape improvement

녹지 공간 창출

Producing greener spaces

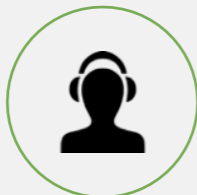

법면 온도 상승 저하

Heat reduction

사고시 충격 흡수 및 완화

Shock absorption and reduction during accident

소음 흡수

Noise absorption

04 절개지 암반면 자연화

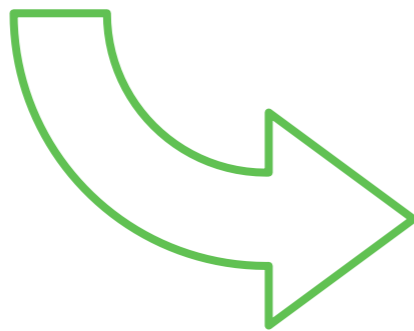

Vegetating Rock Surfaces

Eco-face®

Eco-face® is suitable for
Vegetating Rock Surfaces

<Before>

<After>

04

절개지 암반면 자연화 특징점

Benefits of Vegetating Rock Surfaces

Eco-face®

경관 개선 기능

Landscape improvement

녹지 공간 창출

Producing greener spaces

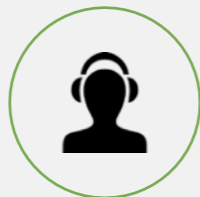

법면 온도 상승 저하

Heat reduction

충격 흡수 및 완화

Shock absorption and reduction

소음 흡수

Noise absorption

05 붕괴 사면 복구

Slope Protection

Eco-face®

<Before>

Eco-face® is suitable for **repairing slopes**

<After>

06 방조제 자연화

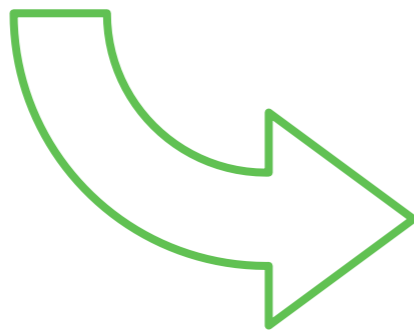

Naturalizing Seawalls

Eco-face®

Eco-face® is suitable for
**Naturalizing Seawalls for
anti global warming**

<Before>

<After>

07 테트라포드 자연화

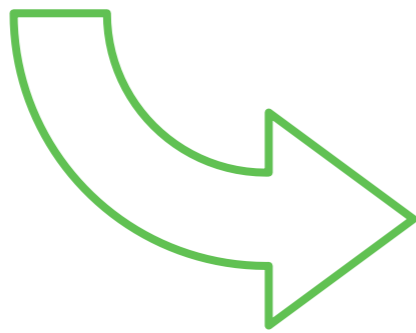

Naturalizing Tetrapods

Eco-face®

Eco-face® is suitable for
**Naturalizing Tetrapods for
anti global warming**

<Before>

<After>

08 콘크리트 농수로 자연화

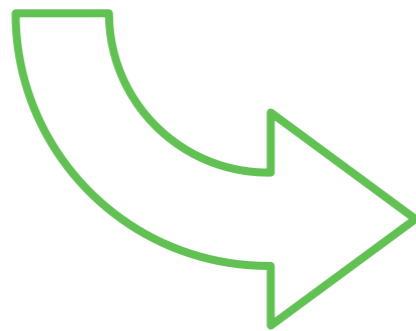

Naturalizing Water Channels

Eco-face®

Eco-face® is suitable for
Naturalizing Water Channels

<Before>

<After>

09 개비온 옹벽 자연화

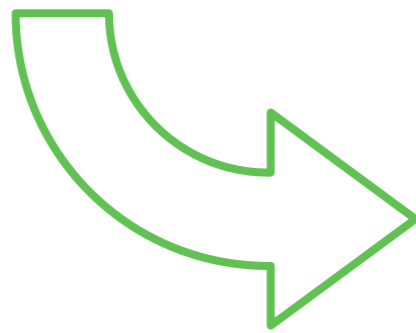

Naturalizing Gabion Walls

Eco-face®

Eco-face® is suitable for
**Naturalizing Gabion Walls for
anti global warming**

<Before>

<After>

10 Eco-Rap

Armouring banks underwater

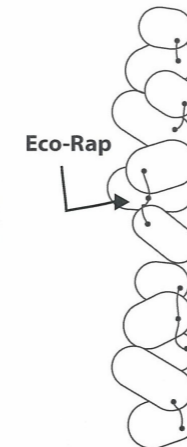

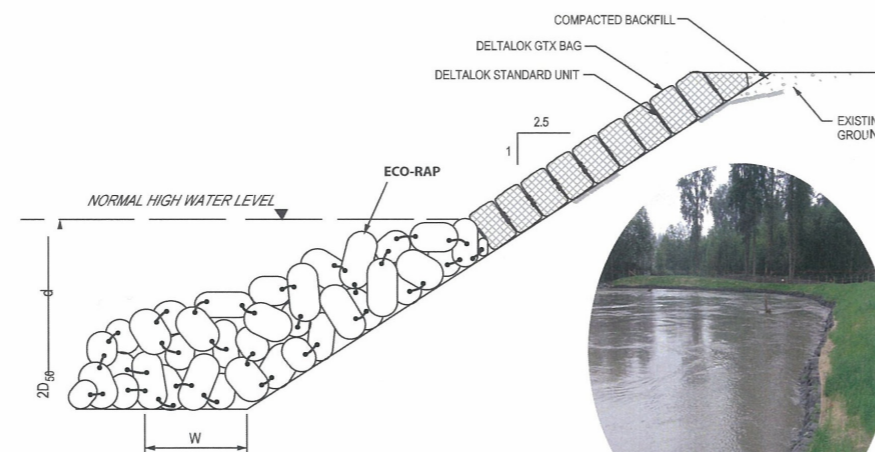

Eco-face®

Eco-Rap™

"Eco-Rap is the world's first permanent soft armour solution for below water applications."

Inter-connected Deltalok GTX bags form an erosion resistant structure protecting land below normal water levels.

- ▶ Soil can be used opposed to rock
- ▶ On Site assembly
- ▶ Habitat Friendly
- ▶ Low Environmental impact
- ▶ Supports vegetation
- ▶ Built in filtration

The patent pending Eco-Rap system of interconnected soil filled Deltalok GTX bags combines mass and bio-engineering principles in providing a low impact method of protecting property, water quality and habitat.

Eco-Rap®
